

Moderator

Ms Anna Kwong
Director, AAJP Consultants Ltd
MH FHKIA

- Does MiC meet the challenges befronting Architects / Engineers as well as other Stakeholders in the Construction Industry nowadays ?

- What are the restrictions to be overcome in adopting this "Factory Assembly → On-site Installation" modern concept ?

Speakers

Mr K.K. Shing
Director, Leigh & Orange Ltd
HKIA

KK is an architect over 20 years experience in the industry. Recently he has taken key project role for numbers of modular integrated construction projects, including the pilot MiC adopted scheme - HKSTP Inno-Cell residential institution for smart living and co-creation community adjacent to Hong Kong Science Park.

Mr Bernard V Lim

Principal, AD+RG
BBS JP FHKIA

"MiC Professionals - a New Trend and Challenges" Experiences from pilot project HKU Wong Chuk Hang Hostels, preparation for BD pre-acceptance submissions to GFA Concession design considerations ... etc.

Mr Leung Wai Man

Director, P&T Group
MISTurctE (UK), PE (Singapore),
HKIE/RPE (HK), RSE (HK)

Wai Man will share P&T's experience on the progressive development from simple precast construction to volumetric precast and MiC systems in Singapore, and applying the knowledge and experience to Hong Kong.
