

Council for Sustainable Development
可持續發展委員會

31 July 2009

Mr K S Wong
Chairman
The Professional Green Building Council
19/F, One Hysan Avenue
Causeway Bay, Hong Kong

Dear Mr Wong,

**Public Engagement Process on Building Design
to Foster a Quality and Sustainable Built Environment**

Invitation to the Briefing for Professional Institutes

On behalf the Council for Sustainable Development, I would like to invite you and members of your organization to participate in a Briefing for Professional Institutes on 13 August 2009 (Thursday) on the public engagement process on Building Design to Foster a Quality and Sustainable Built Environment (the Public Engagement). I should also be grateful if you could disseminate information about the event to your members.

The briefing is designed to enable professionals from various disciplines related to the built environment to join in a dialogue on issues raised in the [Invitation for Response \(IR\) document](#) for the Public Engagement. The issues to be discussed will include, but not limited to, three areas of sustainable building design (i.e. building separation, setback from narrow streets, and greenery), balancing provision of certain building features against the resultant increase in building height and bulk, and energy efficient building design.

Details of the Briefing for Professional Institutes are as follows:

Date : 13 August 2009, Thursday (6:00pm to 8:00pm)
Venue : Business Environment Council Auditorium, Jockey Club Environmental Building, 77 Tat Chee Avenue, Kowloon Tong, Kowloon

It would be our honour to have your support and participation in this public engagement exercise. I look forward to hearing your favourable reply by 10 August 2009 and to meeting you at the Briefing. Should you have any further enquiries, please do not hesitate to contact Miss Patricia Poon of the Programme Director (Business Environment Council), at 2784 3922.

Yours sincerely,

(Ms Jennifer Chan)

Secretary, Council for Sustainable Development
